

EXPOMOBIL

An aerial photograph of a dense, vibrant green forest. In the center, a glowing, semi-transparent globe is superimposed over the trees. The globe has a grid of latitude and longitude lines and a bright green glow. The text 'EXPOCARE' and 'Revolutionary.' is centered over the globe.

EXPOCARE
Revolutionary.

certified sustainability for events

EXPOCARE

awarded by the non-profit institute Cradle to Cradle
Products Innovation Institute, San Francisco

EXPOCARE

The Cradle to Cradle® bronze certificate stands for all-round sustainability.

Our goal: perfect recycling. All used materials are reintroduced into the production process at the end of their life cycle. This is possible due to the single raw material composition of our EXPOCARE carpets.

EXPOCARE

Trade fairs and events sadly always entail a “battle of materials”. Once an event is over, there is a mountain of waste – residual and special category. Carpets are always part of this waste pile. Two percent of trade fair waste are carpets.

Unacceptable for our planet.

Our ExpoCare certified Cradle to Cradle® bronze products are recyclable and can be used as the raw material for new products.

“We take responsibility and contribute to the reduction of CO2 emissions. Recycling drastically helps to reduce one’s carbon footprint, and to save non-renewable resources.”

Delf Henning, Managing Director Expomobil
