100% genuine circular economy - 100% recyclable

From carpet to carpet, thanks to just one material type

EXPO mono carpets consist of a single material type. Unlike multi-materials, mono-materials facilitate recycling and reuse, as they can be sorted and processed more easily.

one material: **100% polyester** 100% recyclable

We feel more committed than ever to setting green standards with our corporate color.

For over 40 years, we have been deeply engaged in daily operations for trade fairs and events. Circular mono-material carpets made from 100% polyester consistently close the material loop: fully recyclable and highly functional. The introduction of the mono-material is a clear commitment to genuine sustainability.

Because for us, responsibility doesn't end with the opening of events, but begins with the reduction of trade fair waste.

This flooring can be used again and again to create new flooring.

A good feeling, a genuine contribution

**100% polyester – completely, residue-free recyclable
– from backing to pile.**

EXPOmono velours uni

The circular, 100% recyclable velour carpet consists entirely of one material.
Velour/tufted; approx. 400 cm wide; roll length approx. 30 linear meters;

K 250 light gray

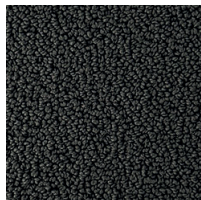

M 253 anthracite

EXPOmono loop

The circular, 100% recyclable loop carpet consists entirely of one material. Loop/tufted; approx. 400 cm wide; roll length approx. 30 linear meters; Backing: fleece; fire protection class (EN 13501-1) Bfl-s1; sold by the roll

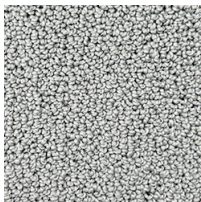

L 351 steel gray

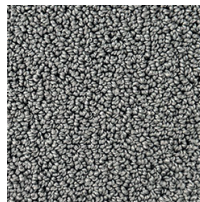

M 350 anthracite

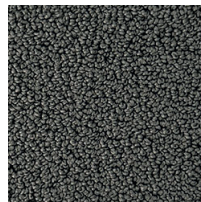

H 350 light beige

K 350 silver gray

K 351 pebble gray

L 352 graphite gray

Easy recycling

Mono-materials can be sorted and recycled more easily, as no complex separation of different materials is required. Enables circular product design.

High recyclability

Due to the uniform material composition, the entire flooring can be reused, leading to better resource utilization. 100% circular.

Reducing waste

EXPOmono-Bodenbeläge tragen dazu bei, nicht recycelbare Messeabfälle zu reduzieren. Die ökologischen Vorteile: weniger Umweltverschmutzung, weniger Verbrennung und Deponierung.

Image gain

Marken, die authentisch nachhaltig handeln, genießen eine höhere Kundentreue. Schaffen Sie Innovations- und Differenzierungsmerkmale durch klare und glaubwürdige Kommunikation.

**WE ARE MOVING FORWARD WITH YOU INTO THE
FUTURE, FOR MORE SUSTAINABILITY AT EVENTS.**
